PROFESSIONAL SUMMARY

QA Test Engineer with 5 years of experience in software and game testing across mobile, web, PC, and console platforms. Experienced in functional, regression, exploratory, UI/UX, cross-platform testing, test case design, defect tracking, and fix verification. Knowledge of Selenium WebDriver, Core Java, API testing, Core Java, API testing, Jira, TestRail, ADB, Logcat, and technical troubleshooting, with experience supporting QA environments and collaborating with development teams.

PROFESSIONAL EXPERIENCE

GlobalStep Services Private Limited

Senior Test Engineer

08/2022 – Present | Pune, India

- Led a team of 5–8 testers and coordinated daily QA activities during multi-platform testing cycles.
- Designed and executed functional and regression test cases to validate feature stability before release.
- Logged and tracked defects in Jira with detailed reproduction steps, logs, and screenshots.
- Performed functional, regression, exploratory, UI/UX, compatibility, and cross-platform testing across mobile, web, PC, and console platforms.
- Retested fixes, performed regression validation, and collaborated with developers to investigate and resolve defects.
- Used ADB, Logcat, Charles Proxy, and Android Studio for crash, network, and software issue investigation.
- Reviewed requirements for testability and risk areas and provided QA feedback during development.
- Supported QA environments with basic hardware, peripheral, software, device, and LAN/Wi-Fi troubleshooting.

Test Engineer

08/2021 – 08/2022 | Pune, India

- Performed functional, exploratory, regression, UI/UX, and compatibility testing across mobile, console, and web applications.
- Created, maintained, and executed test cases based on feature requirements and test scenarios.
- Identified and documented functional, UI, and edge-case defects with clear reproduction steps.
- Reported, tracked, retested, and verified defects using Jira and TestRail.
- Reviewed requirements for testability and risk areas and collaborated with developers to reproduce and close defects.

SKILLS

QA & Testing

Functional Testing • Regression Testing • Exploratory Testing • System Testing • Smoke Testing • Sanity Testing • UI/UX Testing • Compatibility Testing • Cross-Platform Testing • Test Case Design • Test Execution • Test Scenario Analysis • Requirements Review • Defect Lifecycle Management • Defect Verification • Bug Reporting & Documentation • Retesting • Release Validation

Tools

Jira • TestRail • ADB • Logcat • Charles Proxy • Android Studio • Crash Log Analysis • Slack

Platforms

Android • iOS • Windows • macOS • PS4 • PS5 • Xbox • Nintendo Switch • HTML5/Web

Methodologies

STLC • SDLC • Agile/Scrum

QA Activities

Test Scenario Analysis • Requirements Review • Defect Lifecycle Management • Retesting • Regression Validation • Risk Identification • Test Documentation • Reproduction & Issue Investigation • QA Coordination

Automation & API

Selenium WebDriver (Basic) • Core Java • FireFlink • Automation Framework Concepts • Web & Mobile Automation • API Testing Concepts • REST • SOAP • JSON • HTTP Methods

Hardware & IT Troubleshooting

Hardware & Peripheral Troubleshooting • Test Device Setup & Configuration • Software Installation & Configuration • Windows Troubleshooting • LAN/Wi-Fi Troubleshooting • Basic TCP/IP Troubleshooting • Device Connectivity Troubleshooting

PROJECTS

King | Mobile/Web Live-Ops, Android, iOS, Windows, HTML5

01/2023 – Present

- Validated live events, feature releases, A/B experiments, and content updates across multiple platforms.
- Executed functional, regression, exploratory, and cross-platform testing during regular release cycles.
- Coordinated defect verification and release-readiness validation with client teams.

Scopely Mobile, Android, iOS, Windows - Performed feature validation, functional, and regression testing during development cycles. - Reported and tracked gameplay, UI, and functional defects using Jira.	07/2022 – 12/2022
Bandai Namco Console Game, PS4, PS5, Xbox, Nintendo Switch, Windows - Tested gameplay mechanics and platform-specific features across console environments. - Reported functional and UI defects using Jira. - Verified bug fixes during regression cycles before milestone builds.	01/2022 – 07/2022
Microids Console Title, PS4, PS5, Xbox, Nintendo Switch, Windows - Conducted feature testing and defect validation during gameplay sessions. - Reported functional and UI issues using Jira.	10/2021 – 01/2022
Eidos Montreal Console Title, PS4, PS5, Xbox, Windows Executed functional and regression testing across console platforms.	09/2021 – 10/2021

Key Achievements	
QA & Testing - Contributed to multiple successful releases through regression testing and release validation. - Identified and validated defects across multiple platforms and release cycles.	
Client & Collaboration - Received excellent client feedback and appreciation for testing contributions and support. - Coordinated with QA leads, developers, producers, and client teams during testing and release activities.	
Team & Collaboration - Mentored QA testers through knowledge-transfer sessions and testing training. - Supported team members with testing guidance and troubleshooting.	
Defect Management - Improved defect documentation practices with clear reproduction steps and supporting technical evidence. - Assisted developers in reproducing, investigating, and validating software issues.	
Technical Support Provided basic hardware, peripheral, device, software, and LAN/Wi-Fi troubleshooting support alongside regular QA responsibilities.	

Professional Training	
Software Testing with Java Automation (SDET), QSpiders Core Java Fundamentals • Selenium WebDriver • Automation Framework Concepts • Web & Mobile Automation using FireFlink	Kolkata, India
CCNA Training, Evison Technoserve TCP/IP • Routing & Switching • VLAN • DNS • DHCP • Virtualization • AD DS • OSPF • Network Troubleshooting	Kolkata, India

Certifications & Workshops	
- AI Tools Workshop Be10X - Technical Support Fundamentals Google - Cybersecurity Essentials Cisco	

Education	
University Institute of Technology, Bachelor of Engineering (B.E)	09/2018 – 08/2021 Burdwan, West Bengal, India
RRK Government Polytechnic, Diploma	08/2015 – 06/2018 Midnapore, West Bengal, India

Languages	
English Hindi Bengali
